

The Wise men went searching..

Do you go searching for different things? The lost sock, the missing colour from your felt-tip set, that specific lego brick. I've just found the missing cheese in the back of the fridge! And it tastes delicious!! What does it feel like to search? It is hard work and we are so pleased when we have found what we are looking for.

The wise men were searching for Jesus, did you notice in the video that when they found Jesus he was no longer a baby? That must mean they were searching for a long time.

On the activity sheet there are some puzzles to do, or you could make a crown to remind yourself of the searching Kings.
